

HIGH SPEED / FAST ACTING OPTION

"Q" and "QB" Series

The High Speed option provides all of the features of the standard QTRPAQ SS actuators but with enlarged air ports to facilitate rapid operation.

Requires piping with sufficient air flow capacity to support rapid travel.

**Speeds of
1/10 second
or faster for
90 degree
travel.**

Q07SR80-FA075 with oversized 3/4" NPT air port for rapid exhaust

Enlarged Port size = 3/8, 1/2, 3/4 or 1 Inch NPT as required for desired stroke speed
